

Multi-purpose exerciser

The Motion Easy Cycle is a great way to get the health benefits of an exercise bike in a compact cycle.

Portable use of the Easy Cycle makes it great for the home or office so you can exercise at your convenience anywhere.

Therapy

Circulation is increased with the smooth bicycle motion. The safe design helps you to maintain flexibility without stress on the joints, perfect for rehabilitation, diabetes and arthritis sufferers.

Muscle toning & Aerobic exercise

Both Upper & Lower body movements are perfect for aerobic conditioning and help improve muscle strength in the legs, arms, shoulders and back.
