

Inertia Treadmill rated #1 by Personal Trainers

News Release, Cleveland OH - October 27, 2006)

The Inertia X6.5 was rated #1 for home treadmills by Achieve Fitness, a national personal training franchise.

"The quality and features we have seen on the X6.5 treadmill rival those of much more expensive treadmills. Our clients love it." Bob Raymond, President - Achieve Fitness.

Founded in 1998, Inertia Fitness has been producing products that have the best value in the industry. "You get a lot of product for your money, whether you buy our cardio products or strength products you can be assured your will get all the most recommended features, a heavy-duty quality product and approved by leading fitness professionals". Ed Kasanders, Product Development Manager - Inertia Fitness.

The Inertia X6.5 has unique features that include:

- 1-Touch: Instantly change your speed and incline settings with the touch of one of the pre-set buttons on the display.
- Easy-Touch: The Secure handlebars are equipped with a Speed control on one side and a Incline control on the other side. The user never has to let go over the handles to change settings making it extremely safe and convenient.
- Shock-Deck: Tread Deck has vibration-absorbing pads to minimize foot impact reducing stress on the body and joints.

Achieve Fitness is a rapidly growing personal trainer franchise. With trainers located across the country they have thousands of clients that are able to use and test different fitness products that are available. <http://www.achievefitnessusa.com/>
